To the Shareholders of Fidelity® Disruptive Automation Fund, Fidelity® Disruptive Communications Fund, Fidelity® Disruptive Finance Fund, Fidelity® Disruptive Medicine Fund, Fidelity® Disruptive Technology Fund and Fidelity® Disruptors Fund (the Funds):

We wish to inform you that at a meeting held on November 16, 2022, the Board of Trustees of Fidelity Summer Street Trust approved on behalf of the applicable Funds that it oversees, the conversion of each Fund into an exchange-traded fund (ETF), which will continue to be managed by Fidelity Management & Research Company LLC (FMR). The Board of Trustees, including all the Trustees who are not "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the Funds, determined that participation in the conversions is in the best interests of the Funds, and the interests of the existing shareholders of the Funds will not be diluted as a result of the conversions.

Each Fund will be reorganized into a newly created ETF, each of which is a series of Fidelity Covington Trust. Each newly created ETF will have the identical investment objectives and fundamental investment policies as its former mutual fund as well as substantially similar investment strategies.

Although each new ETF will have the same investment objectives and fundamental investment policies as the former mutual fund, ETFs are structurally different from mutual funds and have ETF-specific risks. ETF-specific risks include the risk that shares of an ETF will trade at market prices that may be above (premium) or below (discount) the ETF's net asset value (NAV), or that the ETF's "authorized participants" will not engage in creation or redemption transactions, which could cause the ETF's shares to trade at a discount to NAV and possibly face trading halts and/or delisting.

The table below sets forth the anticipated schedule for each conversion:

Mutual Fund	New ETF	Conversion Date
Fidelity® Disruptive Automation Fund	Fidelity® Disruptive Automation ETF	June 9, 2023
Fidelity® Disruptive Communications Fund	Fidelity® Disruptive Communications ETF	June 9, 2023
Fidelity® Disruptive Finance Fund	Fidelity® Disruptive Finance ETF	June 9, 2023
Fidelity® Disruptive Medicine Fund	Fidelity® Disruptive Medicine ETF	June 9, 2023
Fidelity® Disruptive Technology Fund	Fidelity® Disruptive Technology ETF	June 9, 2023
Fidelity® Disruptors Fund	Fidelity® Disruptors ETF	June 16, 2023

Fidelity believes that the conversions will provide multiple benefits for investors, including:

- Lower costs
- The potential for increased tax efficiency
- Intraday trading
- · Full daily holdings transparency

For additional information about the differences between mutual funds and ETFs and the related risks, please refer to "What are the differences between an ETF and a mutual fund?" and "Comparison of Principal Risk Factors" in the accompanying Information Statement/Prospectus.

Each conversion into an ETF will be conducted pursuant to an Agreement and Plan of Reorganization and Liquidation, a form of which is included as Exhibit 1 to these materials. Each reorganization is structured to be a tax-free reorganization under the U.S. Internal Revenue Code of 1986, as amended.

In connection with the conversions, shareholders of each mutual fund will receive ETF shares equal in value to the shares of the mutual fund they own and may receive a cash payment in lieu of fractional shares of the corresponding ETF, and the redemption of fractional shares may be a taxable event. A conversion into an ETF will not dilute the value of your investment.

In order to receive shares of an ETF as part of a conversion, you must hold your mutual fund shares in a brokerage account that can accept shares of an ETF.

No action is required on your part if you hold your mutual fund shares in a brokerage account that can hold shares of an ETF.

If you do not hold your mutual fund shares in that type of brokerage account, you will not receive shares of an ETF as part of a conversion. Instead, your investment will be liquidated, and you may receive cash equal in value to the NAV of your mutual fund shares. The liquidation of your investment and the return of cash may be subject to tax.

If you hold your mutual fund shares in an account with a financial intermediary that is not able to hold shares of an ETF, like many group retirement plans, your financial intermediary may transfer your investment to a different investment option prior to a conversion. In some cases, this transfer may be subject to tax. It may take time for you to receive your cash. Please consult with your financial intermediary for more information on the impact that a conversion to an ETF will have on you and your investments.

If your account number with Fidelity Investments begins with 2aa -2zz, your account cannot hold shares of an ETF. **Please contact your broker or call 1-800-544-8544.** If you are unsure about the ability of your account to accept shares of an ETF, please contact your broker or financial intermediary.

Please review the accompanying materials closely for additional actions that you must take to receive shares of an ETF as part of a conversion.

If you do not wish to participate in a conversion, you can exchange your mutual fund shares for shares of another Fidelity mutual fund that is not participating in a conversion or redeem your mutual fund shares. Keep in mind that any such action may have tax consequences and you should consult your tax advisor.

The accompanying Information Statement/Prospectus provides more information about each conversion. Please carefully review the additional information provided in this document. If you have questions, please call 1-800-544-8544. If you invest through another financial institution, such as a brokerage firm, please contact your financial institution.

Summary

The following Summary covers certain information contained elsewhere in this Information Statement. Shareholders should read the entire Information Statement carefully for more complete information.

What is involved in each Reorganization?

All of the assets and liabilities of each Acquired Fund will be transferred to a newly created corresponding Acquiring Fund in exchange for shares of the Acquiring Fund equal to the Acquired Fund's net asset value (NAV). The Acquired Fund will distribute to its shareholders the portion of shares of the Acquiring Fund to which the shareholder is entitled (and shareholders may receive cash in lieu of fractional shares). Shares of the Acquiring Fund will be transferred to each shareholder's brokerage account. If a shareholder does not have a brokerage account, Acquired Fund shares may be converted to cash, less any fees and expenses your intermediary may charge (subject to applicable federal or state laws concerning unclaimed property).

After shares of each Acquiring Fund are distributed to the Acquired Fund's shareholders, each Acquired Fund will be completely liquidated and dissolved. As a result of each Reorganization, you will cease to be a shareholder of the Acquired Fund and will become a shareholder of the Acquiring Fund.

Each Reorganization is currently scheduled to take place as of the close of business of the NYSE on the applicable Closing Date listed below.

Acquired Fund	Acquiring Fund	Closing Date
Fidelity® Disruptive Automation Fund	Fidelity® Disruptive Automation ETF	June 9, 2023
Fidelity® Disruptive Communications Fund	Fidelity® Disruptive Communications ETF	June 9, 2023
Fidelity® Disruptive Finance Fund	Fidelity® Disruptive Finance ETF	June 9, 2023

Fidelity® Disruptors Fund	Fidelity® Disruptors ETF	June 16, 2023

For more information, please refer to the section entitled "The Transactions - Agreement and Plan of Reorganization and Liquidation."

What are the differences between an ETF and a mutual fund?

ETFs are structurally different from mutual funds in several important aspects:

ETF	Mutual Fund
Does not issue multiple classes of shares	May offer multiple share classes with different sales charges, expenses, and/or minimum investments
Individual investors buy or sell shares of an ETF on the secondary market through an exchange	Investors or their intermediaries buy or sell shares directly from the mutual fund
Buy and sell orders are processed throughout the day and reflect real time market prices on an exchange	Buy and sell orders are processed once a day using the day's ending net asset value (NAV)

As a result of these structural differences, there are certain benefits associated with an ETF structure, such as secondary market liquidity, increased transparency, and the potential for increased tax efficiency. There are, however, certain risks associated with an ETF structure, including the risk that shares of an ETF will trade at market prices that are above (premium) or below (discount) NAV, or that an ETF's "authorized participants" will not engage in creation or redemption transactions which could cause the Acquiring Fund's shares to trade at a discount to NAV and possibly face trading halts and/or delisting. For additional information about ETF-specific risks associated with an investment in the Acquiring Funds, please refer to the section entitled "Comparison of Principal Risk Factors."

Has the Board of Trustees approved each Reorganization?

Yes. Each Acquired Fund's Board of Trustees has carefully reviewed and approved the Agreement and each Reorganization.

What am I being asked to vote on?

You are not being asked to vote. Rule 17a-8 under the 1940 Act does not require shareholder approval under these conditions and we are not asking you for a proxy, and you are requested not to send us one.

What are the reasons for each Reorganization?

The Board of Trustees considered the following factors, among others, in determining to approve the Agreement:

Each Reorganization will permit shareholders of each Acquired Fund to pursue the same investment objective in an ETF structure, which
provides multiple benefits for shareholders, including lower costs, the potential for increased tax efficiency, intraday trading, and full daily
holdings transparency.

- Acquired Fund Retail and Loyalty Class 1 shareholders are expected to benefit from an expense reduction.
- Each Reorganization will qualify as a tax-free Reorganization for federal income tax purposes (although cash received as part of a Reorganization may be taxable).

For more information, please refer to the section entitled "The Transactions – Reasons for the Reorganization."

How will you determine the number of shares of the Acquiring Funds that I will receive?

Upon completion of each Reorganization, each shareholder of each Acquired Fund will receive shares of the corresponding Acquiring Fund and, in some cases, cash equal to the value of the shares of the Acquired Fund the shareholder owned on the Closing Date.

For more information, please refer to the section entitled "The Transactions - Agreement and Plan of Reorganization and Liquidation."

Is each Reorganization considered a taxable event for federal income tax purposes?

Each Reorganization will be a tax-free reorganization for federal income tax purposes. As part of the Reorganization, some shareholders may receive cash in redemption of fractional shares, which may be a taxable event for applicable shareholders.

Different tax considerations apply to you if your investment is liquidated and the cash value of your Acquired Fund shares is returned to you, if you hold your Acquired Fund shares through an account that cannot hold the corresponding Acquiring Fund shares at the time of the Reorganization, or if your Acquired Fund shares are transferred by your broker or financial intermediary to a different investment option because you did not hold your Acquired Fund shares through an account that can accept shares of the corresponding Acquiring Fund on the Closing Date of the Reorganization.

Shareholders who hold shares through an account that cannot hold shares of an ETF at the time of the Reorganization will have their investments liquidated and may receive cash, which may be a taxable event for shareholders. Capital gains from securities sales by the Acquired Funds prior to the Reorganizations may be distributed by the Acquiring Funds after the Reorganizations.

Shareholders who do not want or cannot hold ETF shares may redeem out of an Acquired Fund or exchange their Acquired Fund shares for shares of another fund. A redemption or exchange of fund shares would generally be a taxable event for shareholders holding shares in taxable accounts.

For more information, please refer to the section entitled "The Transactions - Federal Income Tax Considerations."

What types of shareholder accounts can receive shares of an ETF as part of each Reorganization?

If you hold your Acquired Fund shares in an account that permits you to purchase securities traded on U.S. stock exchanges, such as ETFs or other types of stocks, you are eligible to receive shares of an ETF in a conversion. No further action is needed by you.

What types of shareholder accounts cannot receive shares of an ETF as part of each Reorganization?

The following account types cannot hold ETFs:

If you hold your Acquired Fund shares in an account with a financial intermediary that only allows you to hold shares of mutual funds in
the account, you will need to contact your broker or financial intermediary to transfer your shares to an existing or new brokerage account
that permits investment in ETF shares.

If you do nothing, you will not receive shares of the ETF and your position will be liquidated at the time of the Reorganization and you will receive a cash distribution equal in value to the NAV of your Acquired Fund shares less any fees and expenses your intermediary may charge. This event may be taxable. To prevent a taxable event, please contact your broker or financial intermediary to transfer your shares to an existing or new brokerage account.

Please note: If your account number with Fidelity Investments begins with 2aa -2zz, your account cannot hold shares of an ETF. **Please** contact your broker or call 1-800-544-8544.

 If you hold your Acquired Fund shares through an IRA or group retirement plan whose plan sponsor does not have the ability to hold shares of ETFs on its platform, you may need to redeem your shares prior to the applicable Reorganization, or your broker or intermediary may transfer your investment in an Acquired Fund to a different investment option prior to or at the time of the Reorganization.

If you are unsure about the ability of your account to accept shares of an ETF, please contact your broker or financial intermediary.

How do I transfer my Acquired Fund shares to a brokerage account that will accept ETF shares?

The broker where you hold your Acquired Fund shares should be able to assist you in transferring your shares to a brokerage account that can accept shares of an ETF.

We suggest you provide your broker with a copy of your most recent shareholder statement. Your broker will require your account number, which can be found on your statement. Your broker will help you complete a form to initiate the transfer. Once you sign that form, your broker will submit the form to the Acquired Funds' transfer agent directly, and the shares will be transferred into your brokerage account. The sooner you initiate the transfer, the better.

If you don't have a brokerage account or a relationship with a brokerage firm, you will need to open an account with a brokerage firm.

What if I do not want to own shares of an ETF?

If you do not want to receive shares of an ETF in connection with a Reorganization, you can exchange your Acquired Fund shares for shares of another Fidelity mutual fund that is not participating in a Reorganization or redeem your fund shares. Prior to doing so, however, you should consider the tax consequences associated with either action. Exchange or redemption of your fund shares may be a taxable event if you hold your shares in a taxable account.

The last date to redeem your shares or exchange them for shares of another Fidelity mutual fund prior to each Reorganization is listed below:

Acquired Fund	Final Date to Redeem Acquired Fund Shares or Exchange Acquired Fund Shares for Shares of Another Fidelity Mutual Fund				
Fidelity® Disruptive Automation Fund	June 8, 2023				
Fidelity® Disruptive Communications Fund	June 8, 2023

From time to time, a manager, analyst, or other Fidelity employee may express views regarding a particular company, security, industry, or market sector. The views expressed by any such person are the views of only that individual as of the time expressed and do not necessarily represent the views of Fidelity or any other person in the Fidelity organization. Any such views are subject to change at any time based upon market or other conditions and Fidelity disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any fund.

Each fund has entered into a management contract with FMR, pursuant to which FMR furnishes investment advisory and other services.

Each Acquired Fund and Acquiring Fund pays a management fee to the Adviser. The Acquired Fund management fees are calculated and paid to the Adviser every month. Each class of each Acquired Fund pays FMR a monthly unitary management fee of 1.00% of the fund's average daily net assets of the class throughout the month. For Loyalty Class 1, Loyalty Class 2, and Class F, such fee is subject to the expense contract arrangements discussed in greater detail under "Management Contracts – Management-Related Expenses" in each Acquired Fund's SAI.

The management fee rate for the Acquiring Funds, except Disruptors ETF, is 0.50%. The management fee rate for Disruptors ETF is 0.00%.

The Adviser pays all of the other expenses of the Acquiring Funds with limited exceptions.

The basis for the Board of Trustees approving the management contract and sub-advisory agreements for each Acquired Fund is available in each fund's annual report for the fiscal period ended May 31, 2022.

The basis for the Board of Trustees approving the management contract and sub-advisory agreements for each Acquiring Fund will be included in each Acquiring Fund's semi-annual report for the fiscal period ended November 30, 2023, when available.

From time to time, the Adviser or its affiliates may agree to reimburse or waive certain fund expenses while retaining the ability to be repaid if expenses fall below the specified limit prior to the end of the fiscal year.

Reimbursement or waiver arrangements can decrease expenses and boost performance.

For more information about fund management, please refer to the "Fund Management" section of the Acquired Funds' Prospectus, and to the "Control of Investment Advisers" and "Management Contracts" sections of the Statement of Additional Information relating to this Information Statement and the Acquired Funds' Statement of Additional Information, each of which is incorporated herein by reference.

Expense Arrangements

Distribution of Fund Shares

The principal business address of FDC, each fund's principal underwriter and distribution agent, is 900 Salem Street, Smithfield, Rhode Island, 02917.

Each fund or class thereof has adopted a **Distribution and Service Plan** pursuant to Rule 12b-1 under the Investment Company Act of 1940 (1940 Act) that recognizes that FMR may use its management fee revenues, as well as its past profits or its resources from any other source, to pay FDC for expenses incurred in connection with providing services intended to result in the sale of fund shares and/or shareholder support services. A fund's Distribution and Service Plan does not authorize payments by the fund other than those that are to be made to FMR under the fund's management contract.

The Distribution and Service Plans for the Acquiring Funds are substantially the same as the Distribution and Service Plans for the Acquired Funds.

For more information about fund distribution with respect to the Acquiring Funds, please refer to the "Fund Distribution" section of Appendix A and to the "Distribution Services" section of the Statement of Additional Information relating to this Information Statement, which is incorporated herein by reference. For more information about fund distribution with respect to the Acquired Funds, please refer to the "Fund Distribution" section of the Acquired Funds' Prospectus and to the "Distribution Services" section of the Acquired Funds' Statement of Additional Information, each of which is incorporated herein by reference.

How do the funds' fees and operating expenses compare, and what are each Acquiring Fund's fees and operating expenses estimated to be following each Reorganization?

The following tables allow you to compare the fees and expenses of each fund and to analyze the pro forma estimated fees and expenses of the combined fund.

Annual Fund and Class Operating Expenses

The following tables show the fees and expenses of the Acquired Funds for the 12 months ended November 30, 2022, and the pro forma estimated fees and expenses of the combined fund based on the same time period after giving effect to each Reorganization. Annual fund or class operating expenses are paid by each fund or class, as applicable. In addition to the fees and expenses described below, your broker may also require you to pay brokerage commissions on purchases and sales of certain share classes of a fund.

As shown below, each Reorganization is expected to result in lower total annual operating expenses for Retail Class and Loyalty Class 1 shareholders of the Acquired Funds. The lower expense ratio will take effect on April 1, 2023, in advance of each Reorganization. On that date, new and amended expense contracts will reduce the expense ratio for Retail Class and Loyalty Class 1 for each Acquired Fund to 0.50%. From May 1, 2023 to May 25, 2023, all share classes of each Acquired Fund will be consolidated into one share class (Retail Class) in advance of the Reorganization. For Fidelity Disruptors Fund, the Adviser will voluntarily waive management fees effective May 1, 2023 through conversion. Fidelity Disruptors Fund will incur expenses from its investment in the underlying funds in which it invests, resulting in an expense ratio of 0.50%.

These examples assume that all dividends and other distributions are reinvested and that the percentage amounts listed under Annual Operating Expenses remain the same in the years shown. These examples illustrate the effect of expenses, but are not meant to suggest actual or expected expenses, which may vary. The assumed return of 5% is not a prediction of, and does not represent, actual or expected performance of any fund.

Portfolio Turnover

Each fund (except Fidelity Disruptors Fund) pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). Fidelity Disruptors Fund will not incur transaction costs, such as commissions, when it buys and sells shares of underlying Fidelity® mutual funds (or "turns over" its portfolio), but it could incur transaction costs if it were to buy and sell other types of securities directly (including shares of ETFs). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when fund shares are held in a taxable account. These costs, which are not reflected in annual operating expenses or in the example, affect the fund's performance. During the most recent fiscal year, each Acquired Fund's portfolio turnover rate was as set forth in the following table:

Acquired Fund	Portfolio Turnover Rate as a Percentage of the Average Value of its Portfolio
Fidelity® Disruptive Automation Fund	22%
Fidelity® Disruptive Communications Fund	32%
Fidelity® Disruptive Finance Fund	43%
Fidelity® Disruptive Medicine Fund	47%
Fidelity® Disruptive Technology Fund	33%

Payments to Broker-Dealers and Other Financial Intermediaries

Each fund, the Adviser, Fidelity Distributors Company LLC (FDC), and/or their affiliates may pay intermediaries, which may include banks, broker-dealers, retirement plan sponsors, administrators, or service-providers (who may be affiliated with the Adviser or FDC), for the sale of fund shares and related services. These payments may create a conflict of interest by influencing your intermediary and your investment professional to recommend the fund over another investment. Ask your investment professional or visit your intermediary's web site for more information.

Do the procedures for purchasing and redeeming shares of the funds differ?

The Acquired Funds and Acquiring Funds have different procedures for purchasing, exchanging and redeeming shares, which are summarized below.

Acquiring Funds

Shares of each Acquiring Fund are listed and traded on an exchange, and individual fund shares may only be bought and sold in the secondary market through a broker. Each Acquiring Fund does not impose any minimum investment for shares of a fund purchased on an exchange. These transactions are made at market prices that may vary throughout the day and may be greater than a fund's NAV (premium) or less than a fund's NAV (discount). As a result, you may pay more than NAV when you purchase shares, and receive less than NAV when you sell shares, in the secondary market. If you buy or sell shares in the secondary market, you will generally incur customary brokerage commissions and charges. Due to such commissions and charges, frequent trading may detract significantly from investment returns.

Each Acquiring Fund is designed to offer investors an equity investment that can be bought and sold frequently in the secondary market without impact on a fund, and such trading activity is critical to ensuring that the market price of fund shares remains at or close to NAV. Accordingly, the Board of Trustees of the Acquiring Funds has not adopted policies and procedures designed to discourage excessive or short-term trading by these investors.

Shares can be purchased and redeemed directly from each Acquiring Fund at NAV only by Authorized Participants in large increments called "Creation Units." Each Acquiring Fund accommodates frequent purchases and redemptions of Creation Units by Authorized Participants and does not place a limit on purchases or redemptions of Creation Units by these investors. Each Acquiring Fund reserves the right to impose restrictions on disruptive, excessive, or short-term trading.

For more information about the procedures for purchasing and redeeming shares of the Acquiring Fund, please refer to the "Shareholder Information" section of Appendix A.

Acquired Funds

An investor may purchase shares of an Acquired Fund directly from the Acquired Funds through the Distributor or through a financial intermediary. Each Acquired Fund offers multiple share classes.

For more information about the procedures for purchasing, redeeming and exchanging the Acquired Funds' shares, including a description of the policies and procedures designed to discourage excessive or short-term trading of Acquired Fund shares, please refer to the "Additional Information about the Purchase and Sale of Shares" section of the Acquired Funds' Prospectus, and to the "Buying, Selling, and Exchanging Information" section of the Acquired Funds' Statement of Additional Information, each of which is incorporated herein by reference.

Do the funds' dividend and distribution policies differ?

The Acquired Funds and Acquiring Funds have different dividend and distribution policies.

Each Acquired Fund normally pays dividends and capital gain distributions in July and December. Each Acquiring Fund will normally pay dividends in March, June, September, and December and pay capital gain distributions in December.

For more information about the Acquiring Funds' dividend and distribution policies, please refer to the "Dividends and Capital Gain Distributions" section of Appendix A and to the "Distributions and Taxes" section of the Statement of Additional Information relating to this Information Statement, which is incorporated herein by reference. For more information about the Acquired Funds' dividend and distribution policies, please refer to the "Dividends and Capital Gain Distributions" section of the Acquired Funds' Prospectus and the Acquired Funds' Statement of Additional Information, each of which is incorporated herein by reference.

On or before the Closing Date, each Acquired Fund may declare additional dividends or other distributions of its net income and/or net realized capital gains.

Who bears the expenses associated with the Reorganization?

The Acquired Funds will bear the cost of each Reorganization.

For more information, please refer to the section entitled "Additional Information about the Funds – Expenses."

COMPARISON OF PRINCIPAL RISK FACTORS

The following is a summary of the principal risks associated with an investment in the funds. Because the funds have identical investment objectives and substantially similar strategies as described above, the funds are subject to substantially similar investment risks (except that Acquiring Funds are subject to additional ETF-related risks).

Risks associated with an investment in the Funds

Many factors affect each fund's performance. Developments that disrupt global economies and financial markets, such as pandemics and epidemics, may magnify factors that affect a fund's performance. A fund's share price changes daily based on changes in market conditions and interest rates and in response to other economic, political, or financial developments. A fund's reaction to these developments will be affected by the types of securities in which the fund invests, the financial condition, industry and economic sector, and geographic location of an issuer, and the fund's level of investment in the securities of that issuer. Because certain funds concentrate their investments in a particular industry or group of related industries, such fund's performance could depend heavily on the performance of that industry or group of industries and could be more volatile than the performance of less concentrated funds. In addition, because Fidelity Disruptive Automation Fund/ETF, Fidelity Disruptive Communications Fund/ETF, Fidelity Disruptive Finance Fund/ETF, Fidelity Disruptive Medicine Fund/ETF, and Fidelity Disruptive Technology Fund/ETF may invest a significant percentage of assets in a single issuer, the fund's performance could be closely tied to that one issuer and could be more volatile than the performance of more diversified funds. When you sell your shares they may be worth more or less than what you paid for them, which means that you could lose money by investing in a fund.

The following factors can significantly affect a fund's performance:

- Asset Allocation Risk. A fund is subject to risks resulting from the Adviser's asset allocation decisions. The selection of underlying funds
 and the allocation of the fund's assets among various asset classes could cause the fund to lose value or its results to lag relevant
 benchmarks or other funds with similar objectives. In addition, the fund's active asset allocation strategy may cause the fund to have a
 risk profile different than that portrayed above from time to time and may increase losses.
- Investing in Other Funds. A fund bears all risks of investment strategies employed by the underlying funds. A fund does not control the
 investments of the underlying funds, which may have different investment objectives and may engage in investment strategies that a
 fund would not engage in directly. Aggregation of underlying fund holdings may result in indirect concentration of assets in a particular
 industry or group of industries, or in a single issuer, which may increase volatility.
- Stock Market Volatility. The value of equity securities fluctuates in response to issuer, political, market, and economic developments. Fluctuations, especially in foreign markets, can be dramatic over the short as well as long term, and different parts of the market, including different market sectors, and different types of equity securities can react differently to these developments. For example, stocks of companies in one sector can react differently from those in another, large cap stocks can react differently from small cap stocks, and "growth" stocks can react differently from "value" stocks. Issuer, political, or economic developments can affect a single issuer, issuers within an industry or economic sector or geographic region, or the market as a whole. Changes in the financial condition of a single issuer can impact the market as a whole. Terrorism and related geo-political risks have led, and may in the future lead, to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally.
- Foreign and Emerging Markets Risk. Foreign securities, foreign currencies, and securities issued by U.S. entities with substantial foreign operations can involve additional risks relating to political, economic, or regulatory conditions in foreign countries. These risks include fluctuations in foreign exchange rates; withholding or other taxes; trading, settlement, custodial, and other operational risks; and the less stringent investor protection and disclosure standards of some foreign markets. All of these factors can make foreign investments, especially those in emerging markets, more volatile and potentially less liquid than U.S. investments. In addition, foreign markets can perform differently from the U.S. market. Investing in emerging markets can involve risks in addition to and greater than those generally associated with investing in more developed foreign markets. The extent of economic development; political stability; market depth, infrastructure, and capitalization; and regulatory oversight can be less than in more developed markets. Emerging markets typically have less established legal, accounting and financial reporting systems than those in more developed markets, which may reduce the scope or quality of financial information available to investors. Emerging markets economies can be subject to greater social, economic, regulatory, and political uncertainties and can be extremely volatile. All of these factors can make emerging markets securities more volatile and potentially less liquid than securities issued in more developed markets.
 - Global economies and financial markets are becoming increasingly interconnected, which increases the possibilities that conditions in one country or region might adversely impact issuers or providers in, or foreign exchange rates with, a different country or region.
- Management Risk. The Adviser's application of a fund's strategy criteria may not achieve its intended results. A fund could underperform
 in comparison to other funds with a similar benchmark or similar objectives and investment strategies.
- Disruptive Theme Risk. Each fund normally invests directly; or in the case of Fidelity Disruptors Fund/ETF indirectly; in equity securities of companies that the Adviser believes represent a disruptive theme. These companies may not in fact be disruptive or may not be able to capitalize thereon. The risks associated with such companies include, but are not limited to, small or limited markets for such securities, changes in business cycles, world economic growth, technological progress, rapid obsolescence, and government regulation. Securities of companies that represent disruptive themes tend to be more volatile than securities of companies that do not rely heavily on technology. Rapid change to technologies that affect a company's products could have a material adverse effect on such company's results.
- Geographic Exposure. Social, political, and economic conditions and changes in regulatory, tax, or economic policy in a country or region could significantly affect the market in that country or region. From time to time, a small number of companies and industries may represent a large portion of the market in a particular country or region, and these companies and industries can be sensitive to adverse social, political, economic, currency, or regulatory developments. Similarly, from time to time, the fund or an underlying fund may invest a meaningful portion of its assets in the securities of issuers located in a single country or a limited number of countries. If the fund or an underlying fund invests in this manner, there is a higher risk that social, political, economic, tax (such as a tax on foreign investments or financial transactions), currency, or regulatory developments in those countries may have a significant impact on the fund's or the underlying fund's investment performance.
- Special Considerations regarding Japan. The Japanese economy, at times, has been characterized by government intervention and
 protectionism, an aging demographic, declining population, and an unstable financial services sector. International trade, particularly
 with the United States, government support of the financial services sector and other troubled sectors, consistent government policy,
 natural disasters, and geopolitical developments can significantly affect economic growth. Since a significant portion of Japan's trade is
 conducted with developing nations, almost all of which are in East and Southeast Asia, it can be affected by currency fluctuations and
 other conditions in these other countries.
- Industry Concentration. Market conditions, interest rates, and economic, regulatory, or financial developments could significantly affect
 a single industry or group of related industries, and the securities of companies in that industry or group of industries could react
 similarly to these or other developments. In addition, from time to time, a small number of companies may represent a large portion of

a single industry or group of related industries as a whole, and these companies can be sensitive to adverse economic, regulatory, or financial developments. Certain funds will concentrate in the industries or sectors identified in "How do the funds' investment objectives, strategies, policies, and limitations compare?" above that have the risks described below:

The *financials* industries are subject to extensive government regulation which can limit both the amounts and types of loans and other financial commitments they can make, and the interest rates and fees they can charge. Profitability can be largely dependent on the availability and cost of capital and the rate of corporate and consumer debt defaults, and can fluctuate significantly when interest rates change. Financial difficulties of borrowers can negatively affect the financial services industries. Insurance companies can be subject to severe price competition. The financial services industries can be subject to relatively rapid change as distinctions between financial service segments become increasingly blurred.

The *health care* industries are subject to government regulation and reimbursement rates, as well as government approval of products and services, which could have a significant effect on price and availability. Furthermore, the types of products or services produced or provided by health care companies quickly can become obsolete. In addition, pharmaceutical companies and other companies in the health care industries can be significantly affected by patent expirations as well as product liability claims.

- Issuer-Specific Changes. Changes in the financial condition of an issuer or counterparty, changes in specific economic or political
 conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can increase the
 risk of default by an issuer or counterparty, which can affect a security's or instrument's value. The value of securities of smaller, less
 well-known issuers can be more volatile than that of larger issuers. Smaller issuers can have more limited product lines, markets, or
 financial resources.
- "Growth" Investing. "Growth" stocks can react differently to issuer, political, market, and economic developments than the market as a
 whole and other types of stocks. "Growth" stocks tend to be more expensive relative to their earnings or assets compared to other types
 of stocks. As a result, "growth" stocks tend to be sensitive to changes in their earnings and more volatile than other types of stocks.
- "Value" Investing. "Value" stocks can react differently to issuer, political, market, and economic developments than the market as a whole
 and other types of stocks. "Value" stocks tend to be inexpensive relative to their earnings or assets compared to other types of stocks.
 However, "value" stocks can continue to be inexpensive for long periods of time and may not ever realize their full value.
- Quantitative Investing. The value of securities selected using quantitative analysis can react differently to issuer, political, market, and economic developments than the market as a whole or securities selected using only fundamental analysis. The factors used in quantitative analysis and the weight placed on those factors may not be predictive of a security's value. In addition, factors that affect a security's value can change over time and these changes may not be reflected in the quantitative model.

In response to market, economic, political, or other conditions, a fund may temporarily use a different investment strategy for defensive purposes. If the fund does so, different factors could affect its performance and the fund may not achieve its investment objective.

Additional risks associated with an investment in the Acquiring Funds

The Acquiring Funds are subject to the following principal risks, which are not principal risks generally associated with an investment the Acquired Funds:

• Fluctuation of Net Asset Value and Share Price. The NAV of the fund's shares will generally fluctuate with changes in the market value of the fund's holdings. The fund's shares are listed on an exchange and can be bought and sold in the secondary market at market prices. The market prices of shares will fluctuate in accordance with changes in NAV and supply and demand on the listing exchange. Although a share's market price is expected to approximate its NAV, it is possible that the market price and NAV will vary significantly. As a result, you may sustain losses if you pay more than the shares' NAV when you purchase shares, or receive less than the shares' NAV when you sell shares, in the secondary market. During periods of disruptions to creations and redemptions, the existence of extreme market volatility, or lack of an active trading market for a fund's shares, the market price of fund shares is more likely to differ significantly from the fund's NAV. During such periods, you may be unable to sell your shares or may incur significant losses if you sell your shares. There are various methods by which investors can purchase and sell shares and various orders that may be placed. Investors should consult their financial intermediary before purchasing or selling shares of a fund. Disruptions at market makers, Authorized Participants or market participants may also result in significant differences between the market price of the fund's shares and the fund's NAV. In addition, in stressed market conditions or periods of market disruption or volatility, the market for shares may become less liquid in response to deteriorating liquidity in the markets for the fund's underlying portfolio holdings.

The market price of shares during the trading day, like the price of any exchange-traded security, includes a bid-ask spread charged by the exchange specialist, market makers, or other participants that trade the particular security. In times of severe market disruption or volatility, the bid-ask spread can increase significantly. At those times, shares are most likely to be traded at a discount to NAV, and the discount is likely to be greatest when the price of shares is falling fastest, which may be the time that you most want to sell your shares. Securities held by a fund may be traded in markets that close at a different time than the listing exchange. During the time when the listing exchange is open but after the applicable market closing, fixing or settlement times, bid-ask spreads and the resulting premium or discount to the fund's NAV may widen. The Adviser expects that, under normal market conditions, large discounts or premiums to NAV will not be sustained in the long term because of arbitrage opportunities.

• Trading Issues. Although shares are listed on an exchange, there can be no assurance that an active trading market or requirements to remain listed will be met or maintained. Only an Authorized Participant may engage in creation or redemption transactions directly with the fund. The fund has a limited number of intermediaries that act as Authorized Participants. There are no obligations of market makers to make a market in the fund's shares or of Authorized Participants to submit purchase or redemption orders for Creation Units. Decisions by market makers or Authorized Participants to reduce their role with respect to market making or creation and redemption activities during times of market stress, or a decline in the number of Authorized Participants due to decisions to exit the business, bankruptcy, or other factors, could inhibit the effectiveness of the arbitrage process in maintaining the relationship between the underlying value of the fund's portfolio securities and the market price of fund shares. To the extent no other Authorized Participants are able to step forward to create or redeem, shares may trade at a discount to NAV and possibly face delisting. In addition, trading of shares in the secondary market may be halted, for example, due to activation of marketwide "circuit breakers." If trading halts or an unanticipated early closing of the listing exchange occurs, a shareholder may be unable to purchase or sell shares of the fund. FDC, the distributor of the fund's shares, does not maintain a secondary market in the shares.

If the fund's shares are delisted from the listing exchange, the Adviser may seek to list the fund shares on another market, merge the fund with another exchange-traded fund or traditional mutual fund, or redeem the fund shares at NAV.

Shares of the fund, similar to shares of other issuers listed on a stock exchange, may be sold short and are therefore subject to the risk of increased volatility and price decreases associated with being sold short.

Authorized Participant Concentration Risk. A fund may have a limited number of financial institutions that act as Authorized Participants, none of which are obligated to engage in creation and/or redemption transactions. Decisions by market makers or Authorized Participants to reduce their role with respect to market making or creation and redemption activities during times of market stress, or a decline in the number of Authorized Participants due to decisions to exit the business, bankruptcy, or other factors, could inhibit the effectiveness of the arbitrage process in maintaining the relationship between the underlying value of a fund's portfolio securities and the market price of fund shares. To the extent no other Authorized Participants are able to step forward to create or redeem, shares may trade at a discount to NAV and possibly face delisting.

In the case of Fidelity Disruptors ETF, the fund will be subject to the above risks both directly and indirectly through its investment in underlying ETFs.

For more information about the principal risks associated with an investment in the funds, please refer to the "Investment Details" section of the Acquired Funds' Prospectus, and to the "Investment Policies and Limitations" section of the Statement of Additional Information Telephone to this Information Statement and the Acquired Funds' Statement of Additional Information, each of which is incorporated herein by reference.

How do the funds compare in terms of their performance?

Each Acquiring Fund is a newly formed "shell" fund that has not yet commenced operations, and therefore, will have no performance history prior to each Reorganization. Each Acquiring Fund has been organized solely in connection with each Reorganization to acquire all of the assets and liabilities of its corresponding Acquired Fund and continue the business of the Acquired Fund. Therefore, after each Reorganization, the Acquired Fund will remain the "accounting survivor." This means that each Acquiring Fund will continue to show the historical investment performance and returns of the corresponding Acquired Fund (even after liquidation of each Acquired Fund).

The historical performance of each Acquired Fund, as it is to be adopted by its corresponding Acquiring Fund, is included in the Acquired Funds' Prospectus, which is incorporated herein by reference.

THE TRANSACTIONS

AGREEMENT AND PLAN OF REORGANIZATION AND LIQUIDATION BETWEEN THE ACQUIRED FUNDS AND ACQUIRING FUNDS.

Agreement and Plan of Reorganization and Liquidation

The terms and conditions under which the transaction may be consummated are set forth in the Agreement. Significant provisions of the Agreement are summarized below; however, this summary is qualified in its entirety by reference to the Agreement, a copy of which is attached as Exhibit 1 to this Information Statement.

Each Agreement contemplates (a) the Acquiring Fund acquiring as of the Closing Date all of the assets of the Acquired Fund (excluding assets having a value equal to cash to be distributed in accordance with the Agreement) in exchange for shares of the Acquired Fund and the assumption by the Acquiring Fund of the Acquired Fund's liabilities; (b) the distribution of shares of the Acquiring Fund to the shareholders of the Acquired Fund as provided for in the Agreement (shareholders may receive cash in lieu of fractional Acquiring Fund shares); and (c) the distribution of cash to shareholders of the Acquired Fund who do not hold Acquired Fund shares through a brokerage account that can accept Acquiring Fund shares.

The value of Acquired Fund assets to be acquired by Acquiring Fund and the amount of its liabilities to be assumed by Acquiring Fund will be determined as of the close of business of the NYSE on the Closing Date, using the valuation procedures set forth in the Acquired Fund's then-current Prospectus and Statement of Additional Information. The net asset value of a share of Acquiring Fund will be determined as of the same time using the valuation procedures set forth in the Acquired Fund's then-current Prospectus and Statement of Additional Information.

As of the Closing Date, Acquiring Fund will deliver to Acquired Fund, and Acquired Fund will distribute to its shareholders of record, shares of Acquiring Fund so that each Acquired Fund shareholder will receive the number of shares of Acquiring Fund equal in value to the aggregate net asset value of shares of Acquired Fund held by such shareholder on the Closing Date); Acquired Fund will be liquidated as soon as practicable thereafter. Each Acquired Fund shareholder's account shall be credited with the respective *pro rata* number of shares of Acquiring Fund due that shareholder (shareholders may receive cash in lieu of fractional shares, which may be a taxable event). Shareholders of the Acquired Fund who do not hold Acquired Fund shares through a brokerage account that can accept Acquiring Fund shares will receive cash in connection with the Reorganization, which cash payment may be taxable. Capital gains from securities sales by the Acquired Funds prior to the Reorganizations may be distributed by the Acquiring Funds after the Reorganizations.

Any transfer taxes payable upon issuance of shares of Acquiring Fund in a name other than that of the registered holder of the shares on the books of Acquired Fund as of that time shall be paid by the person to whom such shares are to be issued as a condition of such transfer. Any reporting responsibility of Acquired Fund is and will continue to be its responsibility up to and including the Closing Date and such later date on which Acquired Fund is liquidated.

Each Acquired Fund will bear the cost of its Reorganization, including professional fees and expenses associated with the filing of registration statements, which will consist principally of printing and mailing the Information Statement.

The consummation of the Reorganization is subject to a number of conditions set forth in the Agreement, some of which may be waived by a fund. In addition, the Agreement may be amended in any mutually agreeable manner.

Reasons for the Reorganization

In determining whether to approve the Reorganization, each fund's Board of Trustees (the Board) considered a number of factors, including the following:

- (1) the investment objectives, strategies, and policies of the funds, including the lack of changes to the investment process for each fund;
- (2) the fees and expenses and the relative expense ratios of the funds, including the lower expense ratios that would result for Retail Class and Loyalty Class 1 shareholders as a result of the conversions;
- (3) the differences between the mutual fund and ETF structures;
- (4) the potential benefits of the Reorganization to shareholders of the funds, including potential benefits associated with the ETF structure;
- (5) the costs to be incurred by each fund as a result of the Reorganization and the fact that minimal to no transaction costs were anticipated;
- (6) the tax consequences of the Reorganization; and
- (7) the potential benefit of the Reorganization to FMR and its affiliates.

FMR proposed each Reorganization to the Board at a meeting of the Board held on November 16, 2022. In proposing each Reorganization, FMR advised the Board that each Reorganization would allow Acquired Fund shareholders to benefit from lower costs, the potential for increased tax efficiency, intraday trading, and full daily holdings transparency. The Reorganization will qualify as a tax-free exchange for federal income tax purposes (except with respect to cash received by the shareholders, if any).

The funds' Board carefully reviewed the proposal and determined that each Reorganization is in the best interests of the shareholders of each fund and that each Reorganization will not result in a dilution of the interests of the shareholders of the funds.

Description of the Securities to be Issued

Holders of the Acquired Funds will receive, respectively, shares of the corresponding Acquiring Fund. For the avoidance of doubt, the Acquiring Fund shall not issue fractional shares, and Acquired Fund shareholders may receive cash in connection with the Reorganization in lieu of fractional Acquiring Fund Shares.

Each Acquiring Fund is a series of Fidelity Covington Trust. The Trustees of Fidelity Covington Trust are authorized to issue an unlimited number of shares of beneficial interest of separate series. Each share of each Acquiring Fund represents an equal proportionate interest with each other share of the fund, and each such share of each Acquiring Fund is entitled to equal voting, dividend, liquidation, and redemption rights. Each shareholder of each Acquiring Fund is entitled to one vote for each dollar of net asset value of the fund that shareholder owns, with fractional dollar amounts entitled to a proportionate fractional vote. Shares of each Acquiring Fund have no preemptive rights. Shares are fully paid and nonassessable, except as set forth in the "Description of the Trust — Shareholder Liability" section of the Statement of Additional Information relating to this Information Statement, which is incorporated herein by reference.

Fidelity Covington Trust does not hold annual meetings of shareholders. There will normally be no meetings of shareholders for the purpose of electing Trustees unless less than a majority of the Trustees holding office have been elected by shareholders, at which time the Trustees then in office will call a shareholder meeting for the election of Trustees. Under the 1940 Act, shareholders of record of at least two-thirds of the outstanding shares of an investment company may remove a Trustee by votes cast in person or by proxy at a meeting called for that purpose. The Trustees are required to call a meeting of shareholders for the purpose of voting upon the question of removal of any Trustee when requested in writing to do so by the shareholders of record holding at least 10% of the trust's outstanding shares.

For more information about voting rights and dividend rights, please refer to the "Description of the Trust – Voting Rights" and the "Distributions and Taxes" sections, respectively, of the Statement of Additional Information relating to this Information Statement, which is incorporated herein by reference.

Federal Income Tax Considerations

The following is a general summary of some of the important U.S. federal income tax consequences of each Reorganization and is based upon the current provisions of the Internal Revenue Code (the Code), the existing U.S. Treasury Regulations thereunder, current administrative rulings of the U.S. Internal Revenue Service (IRS) and published judicial decisions, all of which are subject to change, possibly with retroactive effect. These considerations are general in nature and apply with respect to Acquired Fund shareholders that have their Acquired Fund shares exchanged for Acquiring Fund shares. Individual shareholders should consult their own tax advisors as to the federal, state, local, and foreign tax considerations applicable to them and their individual circumstances. These same considerations generally do not apply to shareholders whose investment is liquidated and the cash value of whose Acquired Fund shares is returned to them, shareholders who hold their Acquired Fund shares through an account that cannot hold the corresponding Acquiring Fund shares at the time of the Reorganization, or shareholders whose Acquired Fund shares are transferred by their broker or financial intermediary to a different investment option because such shareholders did not hold their Acquired Fund shares through an account that can accept shares of the corresponding Acquiring Fund on the Closing Date of the Reorganization.

The exchange of the Acquired Funds' assets for the corresponding Acquiring Funds' shares and the assumption of the liabilities of the Acquired Funds by the Acquiring Funds followed by the distribution of Acquiring Fund shares to the corresponding Acquired Fund shareholders in exchange for their Acquired Fund shares in complete liquidation and termination of the Acquired Funds is intended to qualify for federal income tax purposes as tax-free reorganizations under the Code. With respect to each Reorganization, the participating funds will receive an opinion from Dechert LLP, counsel to the funds, substantially to the effect that:

- (i) The acquisition by each Acquiring Fund of substantially all of the assets of the corresponding Acquired Fund in exchange solely for Acquiring Fund shares and the assumption by Acquiring Fund of all liabilities of the corresponding Acquired Fund followed by the distribution of Acquiring Fund shares to the corresponding Acquired Fund shareholders in exchange for their Acquired Fund shares in complete liquidation and termination of each Acquired Fund will constitute a tax-free Reorganization under Section 368(a) of the Code;
- (ii) Each Acquired Fund will recognize no gain or loss upon the transfer of substantially all of its assets to the corresponding Acquiring Fund in exchange solely for Acquiring Fund shares and the assumption by Acquiring Fund of all liabilities of the corresponding Acquired Fund;
- (iii) Each Acquired Fund will recognize no gain or loss upon the distribution to its shareholders of the corresponding Acquiring Fund shares received by the Acquired Fund in the Reorganization;
- (iv) Each Acquiring Fund will recognize no gain or loss upon the receipt of the assets of the corresponding Acquired Fund in exchange solely for Acquiring Fund shares and the assumption of all liabilities of the corresponding Acquired Fund;
- (v) The adjusted basis to an Acquiring Fund of the assets of the corresponding Acquired Fund received by the Acquiring Fund in a Reorganization will be the same as the adjusted basis of those assets in the hands of the Acquired Fund immediately before the exchange;
- (vi) Each Acquiring Fund's holding periods with respect to the assets of the corresponding Acquired Fund that the Acquiring Fund acquires in the Reorganization will include the respective periods for which those assets were held by the Acquired Fund (except where investment activities of the Acquiring Fund have the effect of reducing or eliminating a holding period with respect to an asset);
- (vii) Acquired Fund shareholders will recognize no gain or loss upon receiving the corresponding Acquiring Fund shares in exchange solely for Acquired Fund shares (except with respect to cash received);
- (viii) The aggregate basis of the Acquiring Fund shares received by an Acquired Fund shareholder in a Reorganization will be the same as the aggregate basis of the Acquired Fund shares surrendered by the Acquired Fund shareholder in exchange therefor (reduced by any amount of tax basis allocable to shares for which cash is received); and
- (ix) An Acquired Fund shareholder's holding period for the corresponding Acquiring Fund shares received by the Acquired Fund shareholder in the Reorganization will include the holding period during which the Acquired Fund shareholder held Acquired Fund shares surrendered in exchange therefor, provided that the Acquired Fund shareholder held such shares as a capital asset on the date of the Reorganization.

Notwithstanding the foregoing, no opinion will be expressed as to the tax consequences of the Reorganizations on contracts or securities on which gain or loss is recognized upon the transfer of an asset regardless of whether such transfer would otherwise be a nonrecognition transaction under the Code, as to Acquired Fund shareholders whose investment is liquidated and the cash value of whose Acquired Fund shares is returned to them, as to Acquired Fund shareholders who hold their Acquired Fund shares through an account that cannot hold the corresponding Acquiring Fund shares at the time of the Reorganization, or as to Acquired Fund shareholders whose Acquired Fund shares are transferred by their broker or financial intermediary to a different investment option because such shareholders did not hold their Acquired Fund shares through an account that can accept shares of the corresponding Acquiring Fund on the Closing Date of the Reorganization. None of the Funds have requested or will request an advance ruling from the IRS as to the U.S. federal income tax consequences of the Reorganizations.

The opinion is not binding on the IRS or the courts and is not a guarantee that the tax consequences of the Reorganizations will be as described above. If a Reorganization were consummated but the IRS or the courts were to determine that the Reorganization did not qualify as a tax-free reorganization under the Code and thus were taxable, then the applicable Acquired Fund would recognize gain or loss on the transfer of its assets to the corresponding Acquiring Fund, and each shareholder of the applicable Acquired Fund that held shares in a taxable account would recognize a taxable gain or loss equal to the difference between its tax basis in its Acquired Fund shares and the fair market value of the shares of the Acquiring Fund it received.

The tax year of an Acquired Fund is expected to continue with its Acquiring Fund, and the capital gains, if any, resulting from portfolio turnover prior to the Reorganization will be carried over to the Acquiring Fund unless distributed prior to the Reorganization. An Acquired Fund may declare a distribution to shareholders prior to a Reorganization. If a Reorganization were to end the tax year of an Acquired Fund (which is not the intended or expected plan as of the date of this Information Statement), it could accelerate distributions to shareholders from the Acquired Fund for its short tax year ending on the Closing Date. If determined necessary by the Funds, such an Acquired Fund will declare a distribution to shareholders, which together with all previous distributions, will have the effect of distributing to shareholders all of its investment company taxable income (computed without regard to the deduction for dividends paid), net tax-exempt income, if any, and net realized capital gains, if any, through the closing of the Reorganization. Any of the foregoing distributions, regardless of whether distributed before or after the Reorganization, may be taxable, and would include capital gains from securities sales by the Acquired Funds prior to the Reorganizations. Assuming the Reorganizations qualify as tax-free reorganizations, as expected, each Acquiring Fund will succeed to the tax attributes of the corresponding Acquired Fund upon the closing of each Reorganization, including any capital loss carryovers that could have been used by each Acquired Fund to offset future realized capital gains, if any, for federal income tax purposes. The capital loss carryovers of each Acquired Fund will be available to offset future gains recognized by the Acquiring Fund (subject to the conditions and limitations under the Code). Capital losses of an Acquired Fund may be carried forward indefinitely to offset future capital gains. However, the capital losses of an Acquiring Fund, as the successor in interest to an Acquire

The foregoing description of the U.S. federal income tax consequences of the Reorganizations applies generally to shareholders who are not tax-exempt investors and does not take into account your particular facts and circumstances. Consult your own tax advisor about the effect of state, local, foreign, and other tax laws because this discussion only relates to U.S. federal income tax laws.

Shareholders of an Acquired Fund should consult their tax advisers regarding the effect, if any, of each Reorganization in light of their individual circumstances. Because the foregoing discussion relates only to the federal income tax consequences of each Reorganization, those shareholders also should consult their tax advisers as to state and local tax consequences, if any, of each Reorganization.

Forms of Organization

Each Acquired Fund is a series of Fidelity Summer Street Trust, an open-end management investment company organized as a Massachusetts business trust on March 23, 1977. Each Acquiring Fund is a series of Fidelity Covington Trust, an open-end management investment company created under an initial declaration of trust dated May 10, 1995. The trusts are authorized to issue an unlimited number of shares of beneficial interest. The Acquired Funds and Acquiring Funds are governed by substantially similar Declarations of Trust and by-laws, except that the Declaration of Trust for Fidelity Covington Trust specifically contemplates issuance and redemption of shares in creation unit aggregations. Because the Acquiring Funds operate as exchange-traded funds and issue and redeem shares in Creation Unit aggregations, shareholders of an Acquiring Fund cannot purchase or redeem individual shares of the Acquiring Fund at NAV. Shares of the Acquired Funds, on the other hand, can be purchased and redeemed directly from the Acquired Funds at NAV.

For more information regarding shareholder rights, please refer to the "Description of the Trust" section of the Statement of Additional Information relating to this Information Statement and the Acquired Funds' Statement of Additional Information, each of which is incorporated herein by reference.

Capitalization

The following table shows the capitalization of each Acquired Fund as of November 30, 2022, and on a pro forma combined basis (unaudited) as of that date giving effect to each Reorganization. Pro forma numbers do not reflect any potential liquidation of shareholders associated with a Reorganization or cash paid in lieu of fractional Acquiring Fund shares.

Conclusion

Each Agreement and Plan of Reorganization and Liquidation was approved by the Board of Trustees of Fidelity Summer Street Trust at a meeting held on November 16, 2022. In the event that each Reorganization does not occur, the Acquired Funds will continue to engage in business as funds of a registered investment company and the Board of Trustees of Fidelity Summer Street Trust may consider other proposals for the Reorganization or liquidation of the funds.

Appendix A

ADDITIONAL INFORMATION ABOUT THE ACQUIRING FUNDS

As used in this Appendix A, the term "fund" refers to an Acquiring Fund.

VALUING SHARES

Each fund is open for business each day that either the listing exchange or the New York Stock Exchange (NYSE) is open.

The NAV is the value of a single share. Fidelity normally calculates NAV as of the close of regular trading hours on the listing exchange or the NYSE, normally 4:00 p.m. Eastern time. Each fund's assets normally are valued as of this time for the purpose of computing NAV. The prices at which creations and redemptions occur are based on the next calculation of NAV after a creation or redemption order is received in an acceptable form under the authorized participant agreement.

NAV is not calculated and a fund will not process purchase and redemption requests submitted on days when the fund is not open for business. The time at which shares are priced and until which purchase and redemption orders are accepted may be changed as permitted by the Securities and Exchange Commission (SEC).

Shares of each fund may be purchased through a broker in the secondary market by individual investors at market prices which may vary throughout the day and may differ from NAV.

To the extent that a fund's or underlying Fidelity® fund assets are traded in other markets on days when a fund is not open for business, the value of the fund's assets may be affected on those days. In addition, trading in some underlying Fidelity® fund assets may not occur on days when a fund is open for business.

Shares of open-end funds (excluding ETFs) in which the fund may invest (referred to as underlying funds) are valued at their respective NAVs. NAV is calculated using the values of any underlying funds in which it invests. Other assets are valued primarily on the basis of market quotations, official closing prices, or information furnished by a pricing service. Certain short-term securities are valued on the basis of amortized cost. If market quotations, official closing prices, or information furnished by a pricing service are not readily available or, in the Adviser's opinion, are deemed unreliable for a security, then that security will be fair valued in good faith by the Adviser in accordance with applicable fair value pricing policies. For example, if, in the Adviser's opinion, a security's value has been materially affected by events occurring before a fund's pricing time but after the close of the exchange or market on which the security is principally traded, then that security will be fair valued in good faith by the Adviser in accordance with applicable fair value pricing policies. Fair value pricing will be used for high yield debt securities when available pricing information is determined to be stale or for other reasons not to accurately reflect fair value.

Fair value pricing is based on subjective judgments and it is possible that the fair value of a security may differ materially from the value that would be realized if the security were sold.

SHAREHOLDER INFORMATION

Shares of the fund are listed and traded on an exchange, and individual fund shares may only be bought and sold in the secondary market through a broker or dealer at market price. These transactions, which do not involve the fund, are made at market prices that may vary throughout the day, rather than at NAV. Shares of the fund may trade at a price greater than the fund's NAV (premium) or less than the fund's NAV (discount). An investor may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares (bid) and the lowest price a seller is willing to accept for shares (ask) when buying or selling fund shares in the secondary market (the "bid-ask spread"). Recent information, including information regarding the fund's NAV, market price, premiums and discounts, and bid-ask spread, is available at www.fidelity.com.

General Information

Information on Fidelity

Fidelity Investments was established in 1946 to manage one of America's first mutual funds. Today, Fidelity is one of the world's largest providers of financial services.

In addition to its fund business, the company operates one of America's leading brokerage firms, Fidelity Brokerage Services LLC. Fidelity is also a leader in providing tax-advantaged retirement plans for individuals investing on their own or through their employer.

The Depository Trust Company (DTC) is a limited trust company and securities depository that facilitates the clearance and settlement of trades for its participating banks and broker-dealers. DTC has executed an agreement with FDC, each fund's distributor.

Buying and Selling Shares in the Secondary Market

Shares of each fund are listed and traded on an exchange, and individual fund shares may only be bought and sold in the secondary market through a broker. Each fund does not impose any minimum investment for shares of a fund purchased on an exchange. These transactions are

made at market prices that may vary throughout the day and may be greater than a fund's NAV (premium) or less than a fund's NAV (discount). As a result, you may pay more than NAV when you purchase shares, and receive less than NAV when you sell shares, in the secondary market. If you buy or sell shares in the secondary market, you will generally incur customary brokerage commissions and charges. Due to such commissions and charges, frequent trading may detract significantly from investment returns.

Each fund is designed to offer investors an equity investment that can be bought and sold frequently in the secondary market without impact on a fund, and such trading activity is critical to ensuring that the market price of fund shares remains at or close to NAV. Accordingly, the Board of Trustees has not adopted policies and procedures designed to discourage excessive or short-term trading by these investors.

Shares can be purchased and redeemed directly from each fund at NAV only by Authorized Participants in large increments called "Creation Units." Each fund accommodates frequent purchases and redemptions of Creation Units by Authorized Participants and does not place a limit on purchases or redemptions of Creation Units by these investors. Each fund reserves the right, but does not have the obligation, to reject any purchase or redemption transaction at any time. In addition, each fund reserves the right to impose restrictions on disruptive, excessive, or short-term trading.

Precautionary Notes

- Note to Investment Companies. For purposes of the Investment Company Act of 1940 (1940 Act), shares are issued by a fund, and the
 acquisition of shares by investment companies is subject to the restrictions of Section 12(d)(1) of the 1940 Act. Registered investment
 companies are permitted to invest in a fund beyond the limits set forth in Section 12(d)(1), subject to certain terms and conditions, including
 that such investment companies enter into an agreement with the fund.
- Note to Authorized Participants Regarding Continuous Offering. Certain legal risks may exist that are unique to Authorized Participants
 purchasing Creation Units directly from a fund. Because new Creation Units may be issued on an ongoing basis, at any point a "distribution,"
 as such term is used in the Securities Act of 1933 (the Securities Act), could be occurring. As a broker-dealer, certain activities that you
 perform may, depending on the circumstances, result in your being deemed a participant in a distribution, in a manner which could render
 you a statutory underwriter and subject you to the prospectus delivery and liability provisions of the Securities Act.

For example, you may be deemed a statutory underwriter if you purchase Creation Units from a fund, break them down into individual fund shares, and sell such shares directly to customers, or if you choose to couple the creation of a supply of new fund shares with an active selling effort involving solicitation of secondary market demand for fund shares. A determination of whether a person is an underwriter for purposes of the Securities Act depends upon all of the facts and circumstances pertaining to that person's activities, and the examples mentioned here should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Dealers who are not "underwriters" but are participating in a distribution (as opposed to engaging in ordinary secondary market transactions), and thus dealing with shares as part of an "unsold allotment" within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act.

This is because the prospectus delivery exemption in Section 4(a)(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. As a result, you should note that dealers who are not underwriters but are participating in a distribution (as opposed to engaging in ordinary secondary market transactions) and thus dealing with the shares that are part of an overallotment within the meaning of Section 4(a)(3)(A) of the Securities Act would be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act. Firms that incur a prospectus-delivery obligation with respect to shares of a fund are reminded that, under Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with a sale on an exchange is satisfied by the fact that the prospectus is available at the exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange. Certain affiliates of each fund may purchase and resell fund shares pursuant to this prospectus.

Note to Secondary Market Investors. DTC, or its nominee, is the registered owner of all outstanding shares of a fund. The Adviser will not have
any record of your ownership. Your ownership of shares will be shown on the records of DTC and the DTC participant broker through which
you hold the shares. Your broker will provide you with account statements, confirmations of your purchases and sales, and tax information.
Your broker will also be responsible for distributing income and capital gain distributions and for sending you shareholder reports and other
information as may be required.

Costs Associated with Creations and Redemptions

The funds may impose a creation transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units of shares. Information about the procedures regarding creation and redemption of Creation Units and the applicable transaction fees is included in the Statement of Additional Information (SAI).

DIVIDENDS AND CAPITAL GAIN DISTRIBUTIONS

Each fund earns interest, dividends, and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) as capital gain distributions. If you purchased your shares in the secondary market, your broker is responsible for distributing the income and capital gain distributions to you.

Each fund normally declares dividends and pays capital gain distributions per the tables below:

TAX CONSEQUENCES

As with any investment, your investment in a fund could have tax consequences for you (for non-retirement accounts).

Taxes on Distributions

Distributions investors receive are subject to federal income tax, and may also be subject to state or local taxes.

For federal tax purposes, certain distributions, including dividends and distributions of short-term capital gains, are taxable to investors as ordinary income, while certain distributions, including distributions of long-term capital gains, are taxable to investors generally as capital gains. A percentage of certain distributions of dividends may qualify for taxation at long-term capital gains rates (provided certain holding period requirements are met).

If investors buy shares when a fund has realized but not yet distributed income or capital gains, they will be "buying a dividend" by paying the full price for the shares and then receiving a portion of the price back in the form of a taxable distribution.

Any taxable distributions investors receive will normally be taxable to them when they receive them.

Taxes on Transactions

Purchases and sales of shares, as well as purchases and redemptions of Creation Units, may result in a capital gain or loss for federal tax purposes.

FUND DISTRIBUTION

FDC distributes each fund's shares.

Intermediaries may receive from the Adviser, FDC, and/or their affiliates compensation for providing recordkeeping and administrative services, as well as other retirement plan expenses, and compensation for services intended to result in the sale of fund shares.

These payments are described in more detail in this section and in the Statement of Additional Information relating to this Information Statement.

Distribution and Service Plan(s)

While each fund will not make direct payments for distribution or shareholder support services, each fund has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act with respect to its shares. Each Plan recognizes that the Adviser may use its management fee revenues, as well as its past profits or its resources from any other source, to pay FDC for expenses incurred in connection with providing services intended to result in the sale of shares of each fund and/or shareholder support services. The Adviser, directly or through FDC, may pay significant amounts to intermediaries that provide those services. Currently, the Board of Trustees of each fund has authorized such payments for shares of each fund.

If payments made by the Adviser to FDC or to intermediaries under a Distribution and Service Plan were considered to be paid out of a fund's assets on an ongoing basis, they might increase the cost of your investment and might cost you more than paying other types of sales charges.

No dealer, sales representative, or any other person has been authorized to give any information or to make any representations, other than those contained in this prospectus and in the related SAI, in connection with the offer contained in this prospectus. If given or made, such other information or representations must not be relied upon as having been authorized by the funds or FDC. This prospectus and the related SAI do not constitute an offer by the funds or by FDC to sell shares of the funds to, or to buy shares of the funds from, any person to whom it is unlawful to make such offer.

- (a) Subject to the terms and conditions contained herein, the Acquired Fund agrees to assign, sell, convey, transfer, and deliver to the Acquiring Fund as of the Closing Date all of the assets of the Acquired Fund of every kind and nature existing on the Closing Date. The Acquiring Fund agrees in exchange therefor: (i) to assume all of the Acquired Fund's liabilities existing on or after the Closing Date, whether or not determinable on the Closing Date, and (ii) to issue and deliver to the Acquired Fund the number of full shares of the Acquiring Fund having an aggregate net asset value equal to the value of the assets of the Acquired Fund transferred hereunder, less (1) the value of the liabilities of the Acquired Fund, determined as provided for under Section 4; (2) the value of cash to be distributed to applicable Acquired Fund shareholders in lieu of fractional Acquiring Fund shares; and (3) the value of cash to be distributed to Acquired Fund shareholders who do not hold Acquired Fund shares through a brokerage account that can accept Acquiring Fund shares ("Cash-Out Shareholders"), who shall not receive a distribution of such Acquiring Fund shares and in lieu thereof shall receive a distribution of cash equal to the net asset value of their Acquired Fund shares.
- (b) The assets of the Acquired Fund to be acquired by the Acquiring Fund shall include, without limitation, all cash, cash equivalents, securities, commodities and futures interests, receivables (including interest or dividends receivables), claims, choses in action, and other property owned by the Acquired Fund, and any deferred or prepaid expenses shown as an asset on the books of the Acquired Fund on the Closing Date, except for assets having a value equal to the sum of the values in (1)-(3) in of Section 3(a). The Acquired Fund will pay or cause to be paid to the Acquiring Fund any dividend or interest payments received by it on or after the Closing Date with respect to the assets transferred to the Acquiring Fund hereunder, and the Acquiring Fund will retain any dividend or interest payments received by it after the Valuation Time with respect to the assets transferred hereunder without regard to the payment date thereof.

Notwithstanding the foregoing, the Acquired Fund agrees to use its best efforts to discharge all of its known liabilities prior to the Closing Date, other than liabilities incurred in the ordinary course of business.
- (d) Pursuant to this Agreement, as soon after the Closing Date as is conveniently practicable, the Acquired Fund will take such actions necessary to complete the liquidation of the Acquired Fund in accordance with the Acquired Fund's Amended and Restated Declaration of Trust. To complete the liquidation, the Acquired Fund will (i) constructively distribute pro rata to its shareholders of record (except Cash-Out Shareholders), determined as of the Valuation Time on the Closing Date, the Acquiring Fund Shares in exchange for such shareholders' shares of beneficial interest in the Acquired Fund; (ii) distribute cash, as provided in Section 3(a) to the Cash-Out Shareholders; and (iii) completely liquidate. The distribution of Acquiring Fund Shares shall be accomplished by the Funds' transfer agent opening accounts on the Acquiring Fund's share transfer books in the names of the Acquired Fund shareholders and transferring the Acquiring Fund shares thereto. Each Acquired Fund shareholder's account shall be credited with the respective pro rata number of Acquiring Fund shares due that shareholder. All outstanding Acquired Fund shares, including any represented by certificates, shall simultaneously be canceled on the Acquired Fund's share transfer records. The Acquiring Fund shall not issue certificates representing the Acquiring Fund Shares in connection with the Reorganization. For the avoidance of doubt, the Acquiring Fund shall not issue fractional shares, and Acquired Fund shareholders may receive cash in connection with the Reorganization in lieu of fractional Acquiring Fund Shares.
- (e) Any reporting responsibility of the Acquired Fund is and shall remain its responsibility up to and including the date on which it is terminated.

(f) Any transfer taxes payable upon issuance of the Acquiring Fund shares in a name other than that of the registered holder on the Acquired Fund's books of the Acquired Fund shares constructively exchanged for the Acquiring Fund Shares shall be paid by the person to whom such Acquiring Fund Shares are to be issued, as a condition of such transfer.

4. VALUATION.

- (a) The Valuation Time shall be as of the close of business of the New York Stock Exchange on the Closing Date, or such other date as may be mutually agreed upon in writing by the parties hereto (the Valuation Time).
- (b) As of the Closing Date, the Acquiring Fund will deliver to the Acquired Fund the number of Acquiring Fund Shares having an aggregate net asset value equal to the value of the assets of the Acquired Fund transferred hereunder less the liabilities of the Acquired Fund, determined as provided in this Section 4.
- (c) The net asset value per share of the Acquiring Fund shares to be delivered to the Acquired Fund, the value of the assets of the Acquired Fund transferred hereunder, and the value of the liabilities of the Acquired Fund to be assumed hereunder shall in each case be determined as of the Valuation Time.
- (d) The net asset value per share of the Acquiring Fund shares and the value of the assets and liabilities of the Acquired Fund shall be computed in the manner set forth in the then-current Acquired Fund Prospectus and Statement of Additional Information.
- (e) All computations pursuant to this Section shall be made by or under the direction of Fidelity Service Company, Inc., a wholly-owned subsidiary of FMR LLC, in accordance with its regular practice as pricing agent for the Acquired Fund and the Acquiring Fund.

5. FEES; EXPENSES.

- (a) The Acquired Fund shall be responsible for all expenses, fees and other charges in connection with the transactions contemplated by this Agreement.
- (b) Any expenses incurred in connection with the transactions contemplated by this Agreement which may be attributable to the Acquiring Fund will be borne by the Acquiring Fund.
- (c) Each of the Acquiring Fund and the Acquired Fund represents that there is no person who has dealt with it who by reason of such dealings is entitled to any broker's or finder's or other similar fee or commission arising out of the transactions contemplated by this Agreement.

6. CLOSING DATE.

- (a) The Reorganization, together with related acts necessary to consummate the same (the Closing), unless otherwise provided herein, shall occur at the principal office of the Trusts, 245 Summer Street, Boston, Massachusetts, as of the Valuation Time on [], or at some other time, date, and place agreed to by the Acquired Fund and the Acquiring Fund (the Closing Date).
- (b) In the event that on the Closing Date: (i) any of the markets for securities held by the Funds is closed to trading, or (ii) trading thereon is restricted, or (iii) trading or the reporting of trading on said market or elsewhere is disrupted, all so that accurate appraisal of the total net asset value of the Acquired Fund and the net asset value per share of the Acquiring Fund is impracticable, the Valuation Time and the Closing Date shall be postponed until the first business day after the day when such trading shall have been fully resumed and such reporting shall have been restored, or such other date as the parties may agree.

7. TERMINATION OF THE ACQUIRED FUND.

(a) The Acquired Fund agrees that as soon as reasonably practicable after distribution of the Acquiring Fund Shares and cash as provided herein, the Acquired Fund shall be terminated as a series of the Acquired Fund Trust pursuant to its Amended and Restated Declaration of Trust, any further actions shall be taken in connection therewith as required by applicable law, and on and after the Closing Date the Acquired Fund shall not conduct any business except in connection with its liquidation and termination.

8. CONDITIONS TO OBLIGATIONS OF THE ACQUIRING FUND.
